

Inner West Busway along Victoria Road

IMPORTANT INFORMATION – 9 November, 2009

Bridge approaches in Rozelle and Drummoyne

The RTA needs to build the road approaches to both ends of the new bridge over Iron Cove. This involves removing some of the existing pavement on the approaches to the clip-on lane on Iron Cove Bridge. To do this the clip-on lane must be continually closed for several weeks.

Because traffic volumes are at their lowest over Christmas/New Year the RTA will close the clip-on lane from 27 December, 2009 until 17 January, 2010 to complete the work.

To give us the best chance of reopening the clip-on in mid-January it is important to minimise the amount of work during that period. Preliminary work will be undertaken over five weekends commencing Saturday 14 November, 2009.

The preliminary weekend work will involve removing existing concrete pavement and bridge barriers, installing new drainage and foundations.

Working hours and noise

Work will be continuous from 7am on Saturday to 5am on Monday to ensure that the road can be reopened before the weekday peak period.

The noisiest activities, including saw-cutting and pavement breaking will be done prior to midnight. Activities to be done between midnight and 7am will include excavation and loading of trucks and transporting material off site.

Noise mitigation measures will remain in place throughout this period and noise levels will be closely monitored.

Intermittent periods of high noise levels between 12am and 5am will be unavoidable and will be experienced by residents in the immediate vicinity of the work.

If you experience extended periods of high levels of noisy work and are concerned, please contact the community relations team on 1300 780 841.

The weekend works are scheduled as follows:

- Saturday 14 to Monday 16 November.
- Saturday 21 to Monday 23 November.
- Saturday 28 to Monday 30 November.
- Saturday 12 to Monday 14 December.
- Saturday 19 to Monday 21 December.

Lane closures

The clip-on lane on Iron Cove Bridge will be closed while this work is being carried out. Traffic management crews will be in place to direct drivers safely around the work area. Drivers are requested to take care and follow the signs.
