

Inner West Busway along Victoria Road

Sunday 6 September – Saturday 12 September 2009

A number of residents in the vicinity of the project have requested a weekly update of the construction program for the Inner West Busway project. In response to these enquiries the Roads and Traffic Authority will prepare the table below and deliver it to you on a weekly basis. This weekly update is supplementary to the broad notifications you will receive as the work progresses.

If you would like a weekly update emailed to you each week, please let us know by emailing victoriaroad@btba.com.au.

Working hours are typically Monday to Friday 7am to 6pm and Sunday to Thursday 7pm to 5am, with high noise activities to be undertaken during the day or before midnight. Saturday work hours are 8am to 1pm.

This schedule is based on the most up to date information at the time of printing. However, the days on which activities are undertaken and their duration are subject to change due to weather, technical issues or innovations that may arise during the week.

Drummoyne	Sun 6/9		Mon 7/9		Tue 8/9		Wed 9/9		Thu 10/9		Fri 11/9		Sat 12/9	
	Day	Night	Day	Night	Day	Night	Day	Night	Day	Night	Day	Night	Day	Night

Installation of the tower crane in the King George Park construction compound

A tower crane will be erected in the King George Park construction compound on Saturday 5 September 2009. It will take 1- 2 days (Saturday and Monday) to construct the crane, which will be 57m high. The crane will be used to lift equipment and material onto the barges.

Noise impact

Noise impact will vary depending on your proximity to the noise source, protection by other structures and the type of building you live in. Noise levels have been identified in the project's *Construction Noise and Vibration Management Plan*, ranging on a scale of one to four. For further information or to view this plan, please visit the project document page on our website at www.innerwestbusway.com.au.

Noisy

Type 1 such as saw cutting and rock breaking – **to be completed by midnight.**

Type 2 such as excavation and loading trucks and compaction

Type 3 such as most hand tools, stockpiling, water carts and sweeping

Type 4 such as minor hand tools such as drilling, steel cutting and pavement painting vehicles

Less Noisy
