

Inner West Busway along Victoria Road

FACT SHEET – APRIL 2009

Henley Marine Drive What to expect during construction

Summary

Two construction and compound sites will be set up on Henley Marine Drive, Drummoyne.

Locations include:

- The car park next to the café.
- The car park across the road from the café.

These sites will be used to build some of the bridge piers and spans, build the Drummoyne abutment and provide a loading area for the barges working in Iron Cove.

Temporary parking

Thirty-six parking spaces near the existing Iron Cove Bridge will be unavailable for up to two years during construction.

A new temporary car park will be built on Henley Marine Drive to reduce the impact of loss of parking. The car park will provide up to 27 spaces.

Noise management

A temporary plywood hoarding will be built along the boundary of the car park and the café. This will help reduce noise impacts.

Lane and Road closures

Temporary lane and road closures will be required. Traffic management will be in place to direct drivers safely through or around the sites.

Signs will be in place to direct cyclists and pedestrians safely around the site.

Timeframe

Work on the temporary car park will start in mid 2009 and take up to three months.

The bridge construction and compound sites on Henley Marine Drive will be set up in May 2009 and kept until the upgrade is finished.

Notifications will be delivered in the local area when work is about to start.

Timeframes are estimates only. Times may change due to a number of factors, such as weather.

Construction hours

Due to the need to ensure that Victoria Road remains unimpeded during peak hours, the RTA has approval to undertake construction work at any time (24 hours per day). All construction activities done before 7am or after 6pm on any day, on weekends or public holidays, are subject to measures specified in the Construction Noise and Vibration Management Plan.
