

Inner West Busway along Victoria Road

Removal of two right turns in Rozelle

To provide a citybound bus lane it is necessary to permanently remove right turns into Gordon Street (citybound traffic) and Evans Street (westbound traffic), Rozelle.

Scheduled from 27 August 2009, the following restrictions will apply:

- **No right turn from Victoria Road (citybound) into Gordon Street.** Access to Lilyfield and Leichhardt is available via a right turn at Darling Street or The Crescent / City West Link.
- **No right turn from Victoria Road (westbound) into Evans Street.** Access to Balmain and Birchgrove is available via a right turn at Robert Street or Darling Street.

Please note that these changes will not be implemented until the RTA has completed work to extend the westbound right turn into Darling Street.
