# Inner West Busway Rozelle Bus Lane

Opening 14 December 2009

## New traffic arrangements on Victoria Road, Rozelle

The Inner West Busway along Victoria Road will improve bus travel times and efficiency on Victoria Road for the 200,000 bus commuters who travel along the corridor each week, especially in the busy morning peak.

The bus lane will operate 6-10am citybound along Victoria Road from Terry Street to The Crescent, Rozelle from Monday 14 December 2009. The T3 transit lane will now terminate at Terry Street, Rozelle just beyond the Iron Cove Bridge.

Overhead signs will assist citybound drivers with lane usage when approaching Darling Street. **Please take care and follow the signs.**

## View these new traffic arrangements in 3D!

A 3D visualisation of the new traffic arrangements at the intersection of Darling Street and Victoria Road, Rozelle is available on the project website.
